

Future NHS. NHS 60. The heat is on

Author(s): Carlisle D
Year: 2008
Journal: The Health Service Journal: 28-31

Abstract:

We do not have the right clinicians to cope with an ageing, growing population. Clinical genetics is developing fast. Climate change will impact heavily on health. A highly interactive internet will put patients in greater control.

Resource Description

Exposure :

weather or climate related pathway by which climate change affects health

Unspecified Exposure

Geographic Feature:

resource focuses on specific type of geography

None or Unspecified

Geographic Location:

resource focuses on specific location

Non-United States

Non-United States: Europe

European Region/Country: European Country

Other European Country : United Kingdom

Health Impact:

specification of health effect or disease related to climate change exposure

Health Outcome Unspecified

Medical Community Engagement:

resource focus on how the medical community discusses or acts to address health impacts of climate change

A focus of content

Climate Change and Human Health Literature Portal

Mitigation/Adaptation:

mitigation or adaptation strategy is a focus of resource

Mitigation

Population of Concern: A focus of content

Resource Type:

format or standard characteristic of resource

Policy/Opinion

Timescale:

time period studied

Time Scale Unspecified
